

Associational Initiatives Team  
Funding Protocols  
2006

1. The Associational Initiatives Team will only respond to funding requests from the Associational Director of Missions, State Director of Missions, and/or the State Executive Director.
2. All funding requests must contain the following to be considered:
  - a. A brief paragraph stating how this request fits into and helps achieve the vision of the association to resource its churches and their vision.
  - b. An itemized budget of anticipated expenses.
  - c. What entities are participating in funding this activity and indicate how much each will contribute, i.e. state convention, association, N.A.M.B., etc.
3. The Associational Initiatives Team will commit to the amount needed to fund the request beyond the combined amount committed by the state and association with a maximum of \$500 per request. All requests will be reviewed on an individual basis and will be given priority based on need, opportunity, and availability of funds.
4. The Associational Initiatives Team will not approve a request if they are the only funding agent for the request.
5. Following the event the Associational Initiatives Team will require the participant being funded to submit a brief evaluation of the activity being funded to determine how effective it was for them and how they will use their learning experience to specifically assist and resource their churches' vision. Note: This evaluation is very important to the process. When the Associational Initiatives Team receives your follow up evaluation we will be ready then to assist you with future learning opportunities.
6. Only those requests that fall within the scope of the Associational Initiatives Team vision and assignment will be given consideration for funding.
