**Mission Statement** Baptist Builders exists to assist local congregations with their construction needs. This may include some or all of the planning, construction, and occupancy phases.

## History

For more than 25 years Southern Baptist volunteers have built churches. The Home Mission Board and the Brotherhood Commission facilitated these projects before 1997. The North American Mission Board has done so since 1997, when these two entities, along with the Radio and Television Commission, were combined into one agency. The biblical mandate found in Matthew 28:19-20 has been our motivation to go, reach, and disciple as we plant congregations for new believers. We recognize that most congregations need an adequate facility from which to worship God and reach the community. Baptist Builders helps congregations fulfill their mandate as New Testament churches by assisting with construction needs.

Currently, Baptist Builders completes more than 300 churches/buildings annually across North America. Projects range from first unit new construction to additions on existing buildings to renovation and remodeling of current space. It could be a storefront church, a house church, or a ministry center.

Baptist Builders also assists communities struck by disaster. They help individuals, families, congregations, and communities in the long-term rebuilding and recovery process, which may last two years or more.

Baptist Builders includes anyone with a willing spirit and a heart to serve. You don't have to be an expert—there is something for everyone to do. We all learn together. Volunteers are involved in construction projects year-round.

## The Bridge

<http://thebridge.namb.net>

Churches requesting construction volunteers can post a project on The Bridge by going to <http://thebridge.namb.net>.

Volunteers looking for construction opportunities can find projects on The Bridge at <http://thebridge.namb.net>.

## Skilled and unskilled workers needed for:

- |             |             |
|-------------|-------------|
| Painting    | Sheetrock   |
| Electrical  | Carpentry   |
| Plumbing    | Tile work   |
| Roofing     | Bricklaying |
| Steel studs | Mechanical  |
| Ceilings    | Flooring    |
| Foundations | Landscaping |
| Grading     | Cleanup     |
