

## Multiplication Pipeline Introduction

The Multiplication Pipeline is an online learning tool for developing missional leaders and future church planting missionaries in your church. Individuals receive training in more than 20 areas of missional leadership through self-study, reflection and coaching.

### What the Multiplication Pipeline is...

Multiplication Pipeline training is comprised of 3 levels for progressive and flexible development:

- Level One (L1) equips individuals to live on mission by strengthening spiritual formation, biblical knowledge, servant leadership, and evangelism skills.
- Level Two (L2) prepares individuals for missional leadership and disciple-making while exploring a call to further missional involvement.
- Level Three (L3) explores models and methods of church planting and prepares individuals for their next steps as a church planter or a church planting team member.

The Multiplication Pipeline is designed to serve your goals and your context.

- The Pipeline is easily accessible on a web-based platform compatible with mobile and desktop browsers.
- It is designed to fit a September to May school calendar but flexible enough to implement on any schedule.
- It requires learners to invest approximately 2-3 hours per week.
- Coaches play a significant role in the growth experience and are encouraged to meet with participants at least twice a month.
- The content is suitable for both men and women, and can be tailored to meet specific developmental needs.
- Each lesson follows a learn, integrate, and demonstrate design.

### What the Multiplication Pipeline is *NOT*...

- **A Bible Study:** While content is highly integrated with scripture, the Multiplication Pipeline training is designed to help learners grow as disciple-makers and missional leaders.
- **Theological Training:** While the material touches on basic theology, it is not designed to dive deeply into theological matters.
- **Ministry-Specific Training:** Pipeline training develops leaders with missional mindsets and habits that help any ministry area. However, it is not intended to replace training for specific ministry roles (i.e. Sunday school teachers, children's workers, etc.).

### How to Start Your Multiplication Pipeline

- Watch a Demo and then register your church at [SendNetwork.com/Pipeline](https://SendNetwork.com/Pipeline).
- Your confirmation email will guide you to create a login and your church's own Resource Library.
- You will be contacted by a NAMB Multiplication Pipeline Coach to discuss available options for your participants in your local church.
- Access is free for Southern Baptist Churches.
- For questions, [email\\_pipeline@namb.net](mailto:email_pipeline@namb.net).
