

# EVANGELISM TRAINING PERSONAL ASSESSMENT

This assessment is a tool designed to help you gauge the health of your soul, family and church. It is not exhaustive or meant to be a scientific assessment; rather it is a way for you to reflect on the condition and balance of your life and work. As you read through the following statements, evaluate how you see your present reality in each area. Remember, this is not an evaluation of how you want these areas to be in your life; it is an evaluation of how they are presently.

Rate each area from 0-10 by writing the number in the blank space — **10 meaning you “strongly agree” and 0 meaning you “strongly disagree.”**

Add up your scores in each section to see the results of your self-assessment.
